

The Photo Couple

Wedding Photography By . . .
Steven & Tammy Hermann

(866) 414-1967 (951) 244-6624

photoguy@thephotocouple.com

www.thephotocouple.com

We have created some great packages for you... Coverage starting at just \$995.00 and packages starting at \$1,495.00. We often offer discounts for Weekday and Sunday weddings, never hurts to ask ☺ We offer packages containing both Modern storybook/flush style albums & traditional matted albums. We work out of our home in Riverside County but we work all over Southern, CA & we do not charge for mileage. If you have priced our competition in Orange County, San Diego, & the Inland Empire you will see that our prices are extremely competitive! Take a look at the packages below to find the perfect fit for you.

All of our wedding packages shown on the following pages include...

- *Relaxed time limits we only do one wedding per day
- *No charge for multiple locations
- *DVD Slideshow
- *Free wedding consultation
- *Tammy and Steven will personally photograph your wedding
- *Photojournalistic & Traditional coverage
- *Color, Black & White, & Artistically enhanced images
- *Online image viewing & ordering for you & your guests
- *Professionally edited proofs... No junk for you to sort through!
- *Full resolution edited files with every package

Notes... packages, editing, albums etc.

We have tried our best to create some great packages but sometimes you will want something you don't see... just ask us & we will create something special just for you... we really feel like it never hurts to ask... give us a chance and we will do our best to come through for you ☺

We edit all photographs we take at your wedding... The very best images from the day are selected & presented to you. A typical 6 hour wedding will yield proximately 350-400 edited proofs... this requires about 6-8 hours of computer time... retouching, applying effects(hand coloring, B/W, soft focus Etc.) & cropping... a lot goes into creating a great final image. Don't be fooled by others offering large numbers of lightly or non-edited proofs!

Our Flush Style albums are of the absolute highest quality... The photos "you select" are carefully retouched color corrected and cropped then each album page is custom built by me (Steven) in Photoshop. Album pages are printed by a professional lab then we review the pages to make sure they look great before they are sent on to the album manufacture. The album company we use is a small family owned company their attention to detail and the quality of their albums is excellent... We truly believe this system is going to deliver the best possible product to our customers. In our opinion, the wrong way to build an album is for your photographer to log-on to a large album company website, toss your photos into a template program, & eventually the album company sends you an album. Sometimes the photographer never even sees the finished product!

Our flush albums come standard with hard or soft photo covers... you may have seen steel, acrylic, etc... we can do all of these covers & even some you may not have heard of... our standard size album is 10X10 we can do any size... in other words anything you want, but you don't see, just ask us ☺
