

Listed below are my policies regarding TF / Test shoots.

I keep models on file and contact them thru email when I'm available. Please send back specific dates you can shoot and I will check my calendar,

The shoot/day is photographer driven...I normally know what look/style we will be shooting. If you need something specific like a headshot, bathing suit, full body etc... for your agency, you will need to book a paid shoot.

Setups will most likely take more time and will have more production value than a normal shoot. It's a big "WHAT IF I DO THIS" day.

I will probably do 2 different setups if shooting in the studio.

I am shooting digital and do all my own retouching. I chose *all* images to be retouched / edited.

The industry standard for the amount of images is 1 image per hour of shooting. If I do more beauty type close-ups or the shots require more than normal retouching the amount of images would be less.

You will receive the retouched images via email only (portfolio quality in high res form, 9 x 12s). They may be used for your own personal web site, your agencies website or in loose print form for your modeling book. I will also send web images with my name on them for web use. Images are always completed within 2 weeks time, usually less. Agencies want web files without my name so send them the high res and let them convert to the web for you.

A full model release is required for testing.

You may purchase any final retouched images for a comp card for \$100.00 each; \$25 will go to the makeup artist. (You may choose from the images I send you)

Please send along your phone # if I don't have it. All correspondence will be thru email.

If you have any questions feel free to drop me a line.
