

# Family Sessions

*Everything you need to know!*

I'm so excited I will have a chance to work with you and your family. Here is some important info to ensure things run smoothly. Most sessions are 60 mins so please arrive on time and ready to shoot. If you haven't paid already please have payment when I arrive. I accept cash, check, credit card, or Zell. Please make checks out to KZI LLC

When deciding clothing options try to pick something fashionable but comfortable. Take into consideration the location of your session. For instance, you would not want to wear stilettos to a beach session lol. I recommend clothing and colors that coordinate but aren't super matchy. If we are at a park bug spray may be a good idea. If we are at the beach it would be good to bring a towel for sandy feet and maybe a change of clothes in case someone gets wet! I do not usually supply props, so if there is something you'd like to include in your session please bring it along with you and let me know. I'm happy to incorporate it for you. I also, usually recommend loading your favorite playlist on your phone so we have some good tunes to move to and also bringing a blanket to sit on. This is not mandatory. Sometimes we use them, sometimes we don't, but my motto is "its better to have it and not need it, than to need it and not have it". If you are bringing things with you please bring one large bag to put it all in and I can carry it along with us while we shoot.

If you have little ones, I recommend bringing water and maybe a snack and even possibly a treat for bribery (No, I'm not above bribing small children for good behavior lol)! Also, DO NOT bring a toy that you do not wish to have in the photos because they will most likely not want to let go of it.

If you have teenagers, possibly try to bring something that they are interested in. A football, skateboard, etc. This usually helps them loosen up a bit and feel more themselves.

My style is fairly organic so I will be asking for a combination of a few posed shots and then will probably ask you to just interact as you would if I were not there. Some of the best shots are the ones where the family is just being themselves. Real smiles, real life.

My entire goal is for you and your family to enjoy the session and have fun and by the end of the session we will have some beautiful images for you to treasure!

After our shoot the turn around time for these images is 2-3 weeks. At that time you will receive your PASS Gallery of images via email. In the gallery you will have two download options, high-res or web sized. You will have the option to share your photos to social media or by email. You can also order prints, canvases, or make photo albums straight from this gallery but you are by no means obligated to do so. PASS does offer some of the best professional printing prices in the country and the service is very convenient but you are welcome to download the images and have them printed wherever you'd like. I strongly advise NOT using Walgreens or CVS as prints from them will often look blurry or have color distortion. Costco is a much better option if you or someone you know has a membership.

If you want to share the photos online you will need to download the web sized version and these will automatically be ingrained with my water mark to avoid copyright infringement. For all other purposes you can download the high-res files and those images will not have a watermark. The gallery is pretty self explanatory but if you need any help navigating it please don't hesitate to ask.

I look forward to our shoot! See you then!
