

# Experience the Magic of Santa's Workshop

Your Experience from start to finish: From the time you book your Santa Experience until the time you receive your beautiful artwork and heirloom storybook we are there to help you.

2019

2019

1. After requesting a session we will contact you to select a date and time. During our call we will ask questions about your child or children so that we can create a session that is perfect for them. We will also discuss wardrobe options.
2. Each child will receive a letter from Santa Claus inviting them to help him on this special day.
3. In order to make sure that everyone is able to relax and have fun, Santa's helper will be there to assist with the children.
4. At your Viewing and Ordering Session you will watch a beautiful slideshow of the very best images from Santa's Workshop. We will be there to help you select your favorite moments from that day.
5. Once you decide what style of artwork would be perfect for your home, the magic will begin. All of the images you selected will be transformed into Nostalgic Christmas Art. This style of artwork is created with a lot of love and technical expertise.
6. The final part of this experience will be the feeling that you get every year when you look back on this magical time in your child's life.
