

Floor Plans Created as DWG

AutoCad Drawing format

Get up and running on new projects quickly.

We offer the fastest and most cost-effective solution for capturing and drafting 2D floor plans with DWG Export.

With Lidar Laser Technology we measure and photograph to create your As-Build floor plans; adhering to the ANSI Z2765-2021 Standard.

Document the process and property conditions during construction phases. Additional measurements via the Leica Disto X4 system.

Features:

- DWG (CAD Compatible) file with the project floorplan.
- AIA – American Institute of Architects 'standard layers'.
- Floor Plans are LOD 200 – level of development.
- Annotations include labels, areas, objects, dimensions
- Property Measurement Standard ANSI Z765-2021

* 48 hr file processing. Commercial and Residential to 100,000 sqft
Floorplans shown are premium option.
